EDUCATION

Vellore Institute of Technology

B.Tech Computer Science – Specialisation in Information Security | CGPA: 8.15

Jayendra Saraswati Vidhyalya

Class XII (CBSE) | 85.2%

Air Force School

Class X (CBSE) | 95.1%

Vellore, India

Aug. 2024 – Jun. 2028

Coimbatore, India

Mar. 2024

Coimbatore, India

Mar. 2022

EXPERIENCE

Data Science Engineer

Remote

NexaVerse (Internship)

Jul. 2026 – Ongoing

- Developing an AI-assisted detection engine for EvolveSafe, an AI-powered browser-security product, to identify phishing websites and JavaScript obfuscation in real time, alongside voice AI automation and LLM memory system initiatives

Summer Intern

Panchkula, Haryana, India

Bharat Electronics Limited (BEL)

May 2026 – Jul. 2026

- Engineered a two-stage YOLOv8 + InsightFace (SCRFD + ArcFace) recognition pipeline with temporal-consensus voting and quality-gated auto-enrollment, achieving near-perfect accuracy on multi-angle validation testing and solving the cold-start problem for live reception CCTV feeds
- Extended the YOLOv8/ByteTrack toolchain to build adjacent Smart City analytics – radar-less vehicle speed estimation, traffic density heatmaps, and pedestrian re-identification – deployed on a 4x NVIDIA Tesla T4 GPU server

Software Engineer Intern

India

Indian Army

May 2026 – Jul. 2026

- Designed and developed an internal data automation application for the Indian Army using HTML, CSS, JavaScript, and SQL, with secure data processing and workflow automation

PROJECTS

Privacy Shield | Node.js, Chrome Extension API, Etherscan API, GoPlus API

- Built a weighted heuristic engine to detect malicious Ethereum wallets via real-time security metadata, integrating Etherscan and GoPlus APIs with parallel async fetching
- Designed a Chrome extension UI to visualize risk scores, transaction velocity, and wallet age metrics

Hybrid Plagiarism Detection System | Python, KMP Algorithm, NLP, Cosine Similarity

- Combined KMP exact string matching with sentence embeddings and cosine similarity, achieving hybrid detection of both verbatim copying and paraphrased plagiarism

Hostel Housekeeping Control Panel | React, Tailwind CSS | Live Demo

- Built a real-time web dashboard to modernize hostel hygiene management and room inventory tracking, deployed on Vercel with live state updates

TECHNICAL SKILLS

Languages: C/C++, Python, Java, JavaScript

Frameworks & Libraries: React, Node.js, HTML5, CSS3, Tailwind CSS, YOLOv8, InsightFace (ArcFace/SCRFD), ByteTrack

Developer Tools & APIs: Git, Vercel, Chrome Extension API, Etherscan API, GoPlus API

Spoken Languages: English (Professional), German – Intermediate (A2), Japanese – Elementary (N5), Hindi (Native)

ACHIEVEMENTS & CERTIFICATIONS

VIT Achievers List (2025–2026) | Gravitas Designathon **2nd Place** (2024) | RIVIERA Creative Writing **2nd Place** (2026)

Alliance University MUN – Honourable Mention | Best Delegation Award | IIT Bombay Techfest & VITMUN Participant (2025, 2026) | Gravitas Organising Committee (2026)

Certifications: Mastering DSA – Abdul Bari (Udemy) | Indian Space Academy (ISA) (2025)

Internship Certificates: [Bharat Electronics Limited \(BEL\)](#) | [Indian Army](#)

EXTRACURRICULAR

Mozilla Firefox Club – PR & Outreach | VITMUNSOC – Member
